**REF: Qualification Testing of SFT-Bar GFRP bars of sizes #4, #5, #6 and #7**

To whom it May concern,

This letter to state that SFT-Bar GFRP bars of sizes #4, #5, #6 and #7, where based on current test results the physical properties (including fiber mass content, cross-sectional area, moisture absorption, glass transition temperature, and degree of cure) and the mechanical properties (including tensile strength, modulus of elasticity, and transverse shear strength) conform to ASTM D7957/D7957M-22. If you need more information, please contact SFTec Inc for detailed reports.

Please do not hesitate to contact me if you need further clarification or have other questions.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Francisco De Caso'.

Francisco De Caso, Ph.D., LEED A.P.
